ZENITH CATALOGUE

HELMET

The ZMG safety helmet is designed to provide maximum protection against impacts and falling objects on construction sites and mining areas.

EPI

HELMET

The ZMG safety helmet is designed to provide maximum protection against impacts and falling objects on construction sites and mining areas.

EPI

HELMET

The ZMG safety helmet is designed to provide maximum protection against impacts and falling objects on construction sites and mining areas.

EPI

ZENITH CATALOGUE

SHOE

The ZMG safety shoe is designed to provide superior protection and comfort for workers in demanding environments.

EPI

SHOE

The ZMG safety shoe is designed to provide superior protection and comfort for workers in demanding environments.

EPI

SHOE

The ZMG safety shoe is designed to provide superior protection and comfort for workers in demanding environments.

EPI

ZENITH CATALOGUE

FIRST AID KIT BOX

- ✓ Includes bandages, antiseptics, and other first aid essentials
- ✓ Portable and easy to carry
- ✓ Ideal for workplaces, construction sites, and industrial use

EPI

TAPE

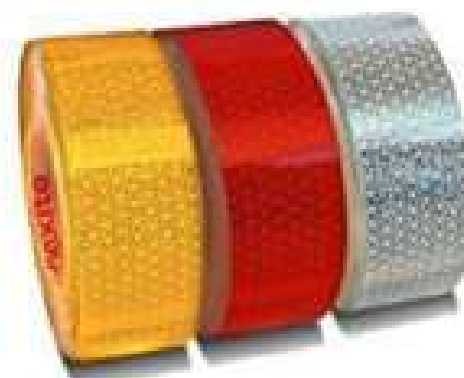

The ZMG safety tape is designed for marking hazardous areas, securing work zones, and ensuring clear visibility in industrial and mining environments.

EPI

TAPE

The ZMG safety tape is designed for marking hazardous areas, securing work zones, and ensuring clear visibility in industrial and mining environments.

EPI

ZENITH CATALOGUE

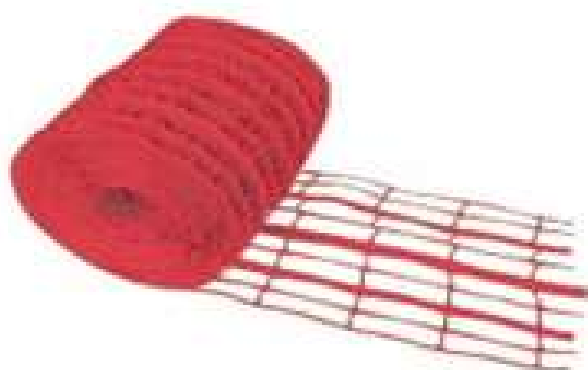

APRON

Essential for workplace safety and protection in hazardous conditions.

EPI

SAFETY MARKING MESH

The ZMG safety marking mesh is designed to delineate hazardous zones, restrict access to dangerous areas, and improve site visibility.

EPI

RAINCOAT

Perfect for ensuring worker protection during rainy and extreme weather conditions.

EPI

ZENITH CATALOGUE

MASK

The ZMG safety mask is designed to protect workers from dust, fumes, and harmful particles in industrial and mining environments.

EPI

WELDING MASK

The ZMG welding mask is designed to protect workers' eyes and face from the intense heat, sparks, and UV radiation produced during welding.

EPI

CLEAR FACE

The ZMG clear face shield is designed to provide full-face protection against flying debris, chemicals, and intense heat in industrial and mining environments.

EPI

ZENITH CATALOGUE

MASK

Perfect for ensuring respiratory safety in environments with airborne hazards such as mining, construction, and chemical handling.

EPI

MASK

Perfect for ensuring respiratory safety in environments with airborne hazards such as mining, construction, and chemical handling.

EPI

GLACE

- ✓ Impact-resistant lenses
- ✓ UV and dust protection
- ✓ Lightweight and comfortable fit

EPI

ZENITH CATALOGUE

GARRETT

- ✓ High sensitivity for accurate detection
- ✓ Lightweight and easy to use
- ✓ Durable construction for tough environments

EPI

GLOVE

Ideal for mining, construction, and heavy-duty industrial work.

EPI

GLOVE

The ZMG safety gloves are designed to protect workers' hands from cuts, abrasions, and exposure to hazardous materials in industrial and mining environments.

EPI

ZENITH CATALOGUE

GLOVE

The ZMG safety gloves are designed to protect workers' hands from cuts, abrasions, and exposure to hazardous materials in industrial and mining environments.

EPI

GLOVE

- ✓ High-voltage protection
- ✓ Lightweight and flexible for ease of movement
- ✓ Durable composite materials for enhanced insulation

EPI

GLOVE

The ZMG safety gloves are designed to protect workers' hands from cuts, abrasions, and exposure to hazardous materials in industrial and mining environments.

EPI

ZENITH CATALOGUE

EAR

✔ High noise reduction for hearing protection
Ideal for workers exposed to loud machinery, equipment, and other high-noise environments.

EPI

EAR

Ideal for workers exposed to loud machinery, equipment, and other high-noise environments.

EPI

EAR

✔ High noise reduction for hearing protection
✔ Comfortable and adjustable fit
✔ Durable and long-lasting

EPI

ZENITH CATALOGUE

LOCK

The ZMG safety lock is designed to secure machinery, equipment, or areas to prevent unauthorized access and ensure worker safety.

EPI

SHOWER

The ZMG safety shower is designed to quickly rinse off harmful chemicals, dust, or other contaminants from a worker's body in case of an emergency.

EPI

SAFETY WARNING

The ZMG safety warning signs are designed to alert workers to potential hazards in the workplace, helping to prevent accidents and ensure safety.

EPI

OUT OF SERVICE SAFETY TAG

Clearly identifies equipment that is out of service and must not be operated. Writable fields allow remarks, date and signature for clear workplace control.

EPI

BACTRACK S80 BREATH ALCOHOL TESTER

Portable breath alcohol tester designed for quick workplace and field alcohol screening. Compact handheld design with a clear digital display.

EPI

SNAKE HANDLING HOOK

Long-reach field safety tool designed to help move or control snakes while maintaining a safer distance and reducing direct contact.

EPI

ZENITH CATALOGUE

SAFETY HARNESS

The ZMG safety harness is designed to protect workers from falls when working at heights or in hazardous environments.

EPI

COVERALLS

The ZMG coveralls (boiler suit) are designed to provide full-body protection for workers in hazardous environments.

EPI

EARPLUGS

- ✓ High noise reduction for hearing protection
- ✓ Comfortable and soft for extended wear
- ✓ Easy to insert and remove

EPI

ZENITH CATALOGUE

VIBROMETER

The ZMG vibrometer is a specialized instrument used to measure and monitor vibrations in machinery and equipment.

LABO

VIBROMETER

The ZMG vibrometer is a specialized instrument used to measure and monitor vibrations in machinery and equipment.

LABO

VIBROMETER

The ZMG vibrometer is a specialized instrument used to measure and monitor vibrations in machinery and equipment.

LABO

ZENITH CATALOGUE

ULTRA

The ZMG ultra ultrasonic testing equipment is designed for non-destructive testing of materials, detecting flaws or irregularities within machinery and structures.

LABO

SOUND LEVEL METER

- ✓ Accurate measurement of sound levels
- ✓ Easy-to-read display
- ✓ Ideal for noise monitoring in industrial environments

LABO

PORTABLE LABORATORY

- ✓ Fully equipped for various tests and analysis
- ✓ Mobile and easy to transport
- ✓ Designed for harsh worksite conditions

LABO

ZENITH CATALOGUE

PH

Perfect for use in laboratories, field testing, and any environment where precise pH monitoring is necessary.

LABO

EDGE-KIT PH

The ZMG Edge-Kit pH is a comprehensive pH testing kit designed for quick and accurate measurement of pH levels in various solutions.

LABO

MINI-TITRATOR

Perfect for chemical testing, water quality analysis, and other environments where precision and portability are essential.

LABO

ZENITH CATALOGUE

PH

Perfect for use in laboratories, field testing, and any environment where precise pH monitoring is necessary.

LABO

WATERPROOF

The ZMG waterproof products are designed to provide protection against water damage in harsh environments.

LABO

MULTIPARA METER

Perfect for use in laboratories, field testing, and industrial sites where multiple parameters need to be monitored simultaneously.

LABO

ZENITH CATALOGUE

BORAX

- ✓ Multi-purpose industrial and household applications
- ✓ Used in cleaning, metallurgy, and manufacturing
- ✓ Effective as a preservative and flux agent

CHEMISTRY

HYDRATED LIME

- ✓ Used for pH adjustment and water treatment
- ✓ Ideal for making mortars and plasters
- ✓ Useful for soil stabilization and in chemical applications

CHEMISTRY

GRINDING BALL

The ZMG grinding ball (boulet) is a key component in grinding mills used in the mining, cement, and other industrial sectors.

CHEMISTRY

ZENITH CATALOGUE

SODIUM NITRATE

Sodium nitrate is a chemical compound commonly used in various industrial applications, including the production of fertilizers, explosives, and in the food industry as a preservative.

CHEMISTRY

CAUSTIC SODA

- ✓ Strong alkaline properties for pH adjustment
- ✓ Used in chemical manufacturing and water treatment
- ✓ Key ingredient in soap and detergent production

CHEMISTRY

CHEMISTRY

- ✓ Understanding the properties and reactions of substances
- ✓ Applied in diverse industries such as pharmaceuticals, energy, and manufacturing
- ✓ Fundamental for developing new materials and technologies

CHEMISTRY

8-INCH 200 MESH TEST SIEVE

Stainless-steel test sieve with an 8-inch diameter and 200-mesh screen. Designed for particle-size separation and screening of geological, mineral and laboratory samples.

GEOLOGY

Come with a plastic box, easy for storage

1.3 MM HB MECHANICAL PENCIL LEADS

1.3 mm HB pencil leads supplied in a protective plastic storage case. Suitable for field notes, geological logging, technical marking and everyday drafting.

GEOLOGY

RECHARGEABLE LED FLASHLIGHT

Rechargeable high-output LED flashlight with charging accessories. Rugged handheld design for illumination during field inspections and geological work.

GEOLOGY

GENERAL 0–180° PROTRACTOR

Precision angle-measuring tool with a 0–180° scale. Useful for geological field measurements, core observations, mapping and technical work.

GEOLOGY

ESTWING GEOLOGICAL ROCK PICK

Heavy-duty geological rock pick designed for field sampling and rock examination. One-piece steel construction provides strength and durability.

GEOLOGY

TRANSPARENT SAMPLE COLUMN

Transparent sample-observation container designed to hold and display material in a clear vertical section, supporting field and laboratory sample examination.

GEOLOGY

ZENITH CATALOGUE

GARMIN64

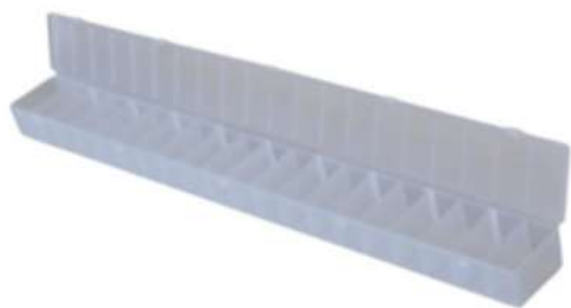

Perfect for navigation and location tracking in rugged environments, ensuring reliable performance in the field.

GEOLOGY

CHIP TRAY

The ZMG chip tray is a tool used for collecting small mineral samples, drill cuttings, or other debris during geological and mining operations.

GEOLOGY

MICROSCOPE

Microscope for geology, gemology, or object observation. A series of stereoscopic microscopes for professionals, individuals, education, and industry. Excellent value for money."

GEOLOGY

ZENITH CATALOGUE

BALANCE

Equipped with ZEMIC OIML approved load cell and OIML approved indicator XK3190-A12E. With LED or LCD display.

Capacity: 30/50/100/150/300/500/800KG/1t

Size: 30x40cm, 40x50cm, 45x60cm, 50x60cm, 60x80cm, 80x100cm

With very competitive price.

GEOLOGY

BOUSOLE

Brunton 5008 ComPro pocket Transit with single NdFeB magnet and Sapphire jewel bearing. Fully scaled in 0-360°. With a body made of composite materials, the Brunton 5008 Transit is a lighter, more affordable alternative. It incorporates a cast NdFeB rare-earth magnet, precisely balanced on a sapphire bearing, resulting in a powerful magnet, which quickly seeks magnetic north and permits faster readings.

GEOLOGY

SILVA GUIDE 2.0 COMPASS

- Detachable lanyard with safety release
- Map measuring scales of 1:24k, 1:62.5k mile, inch (1/20th)
- DryFlex Rubber grip allows easy handling of the compass/great grip

Declination scale inside the capsule to simplify the calculations required

GEOLOGY

ZENITH CATALOGUE

DIVIDERS

Sample splitters and rotating dividers, which divide all pourable solids so accurately that the characteristic composition of each fraction of the sample is indifferent from the original bulk sample. This is of great importance, since faultless and comparable analysis is directly correlated to accurate sample handling.

GEOLOGY

TRIPLET

Professional Triplet Loupe

- Magnification: 10X
- Lens Diameter: 21mm
- Round Shape
- Chrome body
- Leather Pouch

GEOLOGY

KENOMETER

The anodized coating is hard, durable, will never peel, and, under normal conditions, will never wear, while its aluminum body gives it an appropriate strength-to-weight ratio. What's more, the kenometer is specifically contoured to core shapes. Protractor measurements are more accurate as they are closer to the original curve of the core.

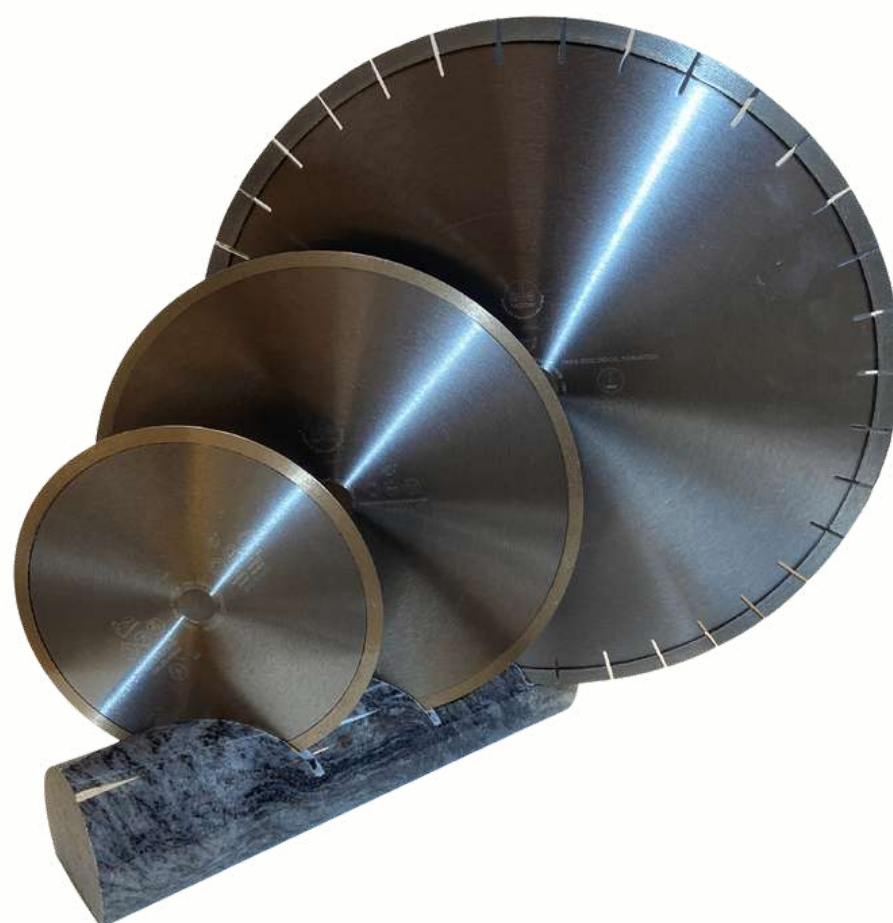

GEOLOGY

ZENITH CATALOGUE

DIAMOND BLADE

- ✓ Ideal for cutting concrete, stone, asphalt, and ceramics
- ✓ Long-lasting, with diamond-infused edges for sharpness
- ✓ High-performance and durable for heavy-duty applications

GEOLOGY

ESTWING

- ✓ Known for strength and durability
- ✓ Made from a single piece of steel for added toughness
- ✓ Ideal for heavy-duty work in construction and mining

GEOLOGY
